

- + Plastic filter box realized with recycled material
- + Manual and automatic working
- + Integrated vertical float switch
- + Minimum draining level 2mm (man)

Model: S.O.S. Flood Kit
Part number: N1080120
Barcode: 7630014503582

SOS FLOOD KIT is an emergency flood kit composed by a **COMPAC 200** (clear water submersible pump), portable plastic filter box, 12.5 m sturdy, durable draining pipe and by a plastic hose connection kit.

Applications

- **SOS FLOOD KIT** helps people who are affected by flood water to react quickly and efficiently. Just put the carrying cage with the pump on the ground and pump the water out of the building through the draining pipe.

Supplied accessories

Technical data
